What we will be offering:

Free Dental screening for under 5's

A dentist will check your child's teeth with a mouth mirror. We will then give you tailored advice around tooth-brushing and diet

Topical fluoride application

Topical fluoride can be applied, this helps strengthen teeth and prevent decay.

Free Toothbrush and toothpaste

We have age appropriate toothbrushes and fluoride toothpastes to give to all children who are screened, and stickers too!

Come and meet the dental team!
