

# Inspire Maths 1 Long-term Plan

Unit title	Key concepts
<b>1 Numbers to 10</b>	
Counting to 10	<ul style="list-style-type: none"> <li>Understand numbers from 0 to 10</li> </ul>
Compare	<ul style="list-style-type: none"> <li>Two sets of objects can be compared using the method of one-to-one correspondence</li> <li>The number of objects can be the same as, smaller than or greater than another set of objects</li> </ul>
Order and pattern	<ul style="list-style-type: none"> <li>A sequence of objects and numbers can form a pattern</li> </ul>
<b>2 Number Bonds</b>	
Making number bonds	<ul style="list-style-type: none"> <li>Adding two or more numbers gives another number</li> </ul>
<b>Practice Book – Review 1</b>	
<b>Assessment Book – Test 1</b>	
<b>3 Addition within 10</b>	
Ways to add	<ul style="list-style-type: none"> <li>Adding is associated with the 'part-whole' and 'adding-on' concepts</li> </ul>
Making up addition stories	
Solving word problems	<ul style="list-style-type: none"> <li>Applying the 'part-whole' and 'adding on' concepts in addition</li> </ul>
<b>4 Subtraction within 10</b>	
Ways to subtract	<ul style="list-style-type: none"> <li>Subtracting is associated with the 'part-whole' and 'taking away' concepts</li> </ul>
Making up subtraction stories	
Solving word problems	<ul style="list-style-type: none"> <li>Applying the 'part-whole' and 'taking away' concepts in subtraction</li> </ul>
Making a family of number sentences	<ul style="list-style-type: none"> <li>A family of number sentences can be written from a set of three related numbers</li> </ul>
<b>Practice Book – Review 2</b>	
<b>Assessment Book – Test 2, Challenging Problems 1, Check-up 1</b>	
<b>5 Shapes and Patterns</b>	
Getting to know shapes	<ul style="list-style-type: none"> <li>A circle has no corners and no sides</li> <li>A square has 4 equal sides and 4 corners</li> <li>A triangle has 3 sides and 3 corners</li> <li>A rectangle has 4 sides (opposite sides are equal) and 4 corners</li> </ul>
Making pictures from shapes	<ul style="list-style-type: none"> <li>Shapes such as circles, triangles, squares and rectangles can be used to make pictures</li> </ul>
Seeing shapes in things around us	<ul style="list-style-type: none"> <li>When an object is viewed from different angles/sides, we can see different shapes. For example, the top view of a tin of soup is a circle</li> </ul>
Getting to know patterns	<ul style="list-style-type: none"> <li>Patterns are formed by repeating a particular arrangement of shape, size and/or colour placed next to each other</li> </ul>

<b>Unit title</b>	<b>Key concepts</b>
Making more patterns	<ul style="list-style-type: none"> <li>Patterns can be formed by repeating a particular arrangement of objects placed next to each other</li> </ul>
<b>6 Ordinal numbers</b>	
Knowing ordinal numbers	<ul style="list-style-type: none"> <li>Ordinal numbers are for describing the position of something</li> </ul>
Naming left and right positions	<ul style="list-style-type: none"> <li>Positions from the left and right can be named using ordinal numbers</li> </ul>
<b>Practice Book – Review 3</b>	
<b>7 Numbers to 20</b>	
Counting to 20	<ul style="list-style-type: none"> <li>Use one-to-one correspondence in counting</li> </ul>
Place value	<ul style="list-style-type: none"> <li>Numbers to 20 can be represented as tens and ones in a place value chart</li> </ul>
Compare	<ul style="list-style-type: none"> <li>Numbers to 20 can be compared using the terms 'greater than' and 'smaller than' as well as by arranging in ascending or descending order</li> </ul>
Order and pattern	<ul style="list-style-type: none"> <li>Numbers can be arranged in order and made into a pattern</li> </ul>
<b>Assessment Book – Test 3</b>	
<b>8 Addition and Subtraction within 20</b>	
Ways to add	<ul style="list-style-type: none"> <li>Two 1-digit numbers can be added by using the 'make 10' strategy and the 'regrouping into tens and ones' strategy</li> </ul>
Ways to subtract	<ul style="list-style-type: none"> <li>2-digit numbers can be regrouped into tens and ones</li> </ul>
Solving word problems	<ul style="list-style-type: none"> <li>Applying the 'part-whole', 'adding on' and 'taking away' concepts in addition and subtraction</li> </ul>
<b>9 Length</b>	
Comparing two things	<ul style="list-style-type: none"> <li>The lengths of two objects can be compared using the terms 'tall/taller', 'long/longer', 'short/shorter' and 'high/higher'</li> </ul>
Comparing more things	<ul style="list-style-type: none"> <li>The lengths of more than two objects can be compared using the terms 'tallest', 'longest', 'shortest' and 'highest'</li> </ul>
Using a start line	<ul style="list-style-type: none"> <li>A common starting point makes comparison of lengths easier</li> </ul>
Measuring things	<ul style="list-style-type: none"> <li>Length can be measured using objects as non-standard units</li> </ul>
Finding lengths in units	<ul style="list-style-type: none"> <li>Length can be described using the term 'unit' instead of paper clips or lolly sticks</li> </ul>
<b>Practice Book – Revision 1</b>	
<b>Assessment Book – Test 4, Challenging Problems 2, Check-up 2</b>	
<b>10 Mass</b>	
Comparing things	<ul style="list-style-type: none"> <li>Compare masses using a pan balance</li> </ul>
Finding the masses of things	<ul style="list-style-type: none"> <li>Mass can be measured using objects as non-standard units</li> </ul>
Finding mass in units	<ul style="list-style-type: none"> <li>Mass can be described using the term 'units'</li> </ul>

<b>Unit title</b>	<b>Key concepts</b>
<b>11 Picture graphs</b>	
Simple picture graphs	<ul style="list-style-type: none"> <li>Data can be collected and organised into a horizontal or vertical picture graph for interpretation</li> </ul>
More picture graphs	<ul style="list-style-type: none"> <li>Data can be collected and organised into a horizontal or vertical picture graph using symbols</li> </ul>
<b>Assessment Book – Test 5</b>	
<b>12 Numbers to 40</b>	
Counting to 40	<ul style="list-style-type: none"> <li>Using one-to-one correspondence in counting</li> <li>1 ten equals ten ones</li> </ul>
Place value	<ul style="list-style-type: none"> <li>Numbers to 40 can be represented as tens and ones in a place value chart</li> </ul>
Comparing, order and pattern	<ul style="list-style-type: none"> <li>Numbers to 40 can be compared using the terms 'greater than' / 'smaller than' and 'greatest' / 'smallest' as well as arranged in ascending or descending order</li> </ul>
Simple addition	<ul style="list-style-type: none"> <li>'Add on' and 'part-whole' concepts are used in adding numbers</li> </ul>
More addition	<ul style="list-style-type: none"> <li>'Add on' and 'part-whole' concepts are used in adding numbers</li> <li>Regrouping concept can be applied in addition</li> </ul>
Simple subtraction	<ul style="list-style-type: none"> <li>The 'taking away' concept is used in subtraction</li> </ul>
More subtraction	
Adding three numbers	<ul style="list-style-type: none"> <li>'Add on' and 'making ten' concepts are used in adding three numbers</li> <li>The regrouping concept is also applied</li> </ul>
Solving word problems	<ul style="list-style-type: none"> <li>The 'part-whole', 'taking away', 'adding on' and 'comparing' concepts are used to solve word problems involving addition and subtraction</li> </ul>
<b>Practice Book – Review 4</b>	
<b>13 Mental calculations</b>	
Mental addition	<ul style="list-style-type: none"> <li>A 2-digit number can be conceptualised as tens and ones</li> <li>Adding is conceptualised as adding or putting parts together</li> </ul>
Mental subtraction	<ul style="list-style-type: none"> <li>A 2-digit number can be conceptualised as tens and ones</li> <li>Subtracting is conceptualised as taking away from a whole</li> </ul>
<b>14 Multiplication</b>	
Adding the same number	<ul style="list-style-type: none"> <li>Multiplication is conceptualised as repeated addition</li> </ul>
Making multiplication stories	<ul style="list-style-type: none"> <li>Tell stories based on the multiplication concept and repeated addition</li> </ul>
Solving word problems	<ul style="list-style-type: none"> <li>Applying the multiplication concept to solve word problems</li> </ul>
<b>Practice Book – Review 5</b>	
<b>Assessment Book – Test 6, Challenging Problems 3, Check-up 3</b>	
<b>15 Division</b>	
Sharing equally	<ul style="list-style-type: none"> <li>Division is conceptualised as dividing a set of objects equally</li> </ul>

<b>Unit title</b>	<b>Key concepts</b>
Finding the numbers of groups	<ul style="list-style-type: none"> <li>• Division is conceptualised as sharing a set of items equally into groups</li> </ul>
<b>16 Time</b>	
Telling the time to the hour	<ul style="list-style-type: none"> <li>• Time can be used to measure the duration of an event</li> </ul>
Telling the time to the half hour	<ul style="list-style-type: none"> <li>• Measuring half an hour using the term 'half past'</li> </ul>
<b>Practice Book – Review 6</b>	
<b>Assessment Book – Test 7</b>	
<b>17 Numbers to 100</b>	
Counting	<ul style="list-style-type: none"> <li>• Using one-to-one correspondence in counting</li> <li>• 1 ten is the same as 10 ones</li> <li>• 10 tens is 100</li> </ul>
Place value	<ul style="list-style-type: none"> <li>• Numbers to 100 can be represented as tens and ones in a place value chart</li> </ul>
Comparing, order and pattern	<ul style="list-style-type: none"> <li>• Numbers to 100 can be compared using the terms 'greater than' and 'smaller than'</li> <li>• Numbers to 100 can be arranged in ascending or descending order</li> </ul>
Simple addition	<ul style="list-style-type: none"> <li>• The 'adding on' and 'part-whole' concepts are used in adding numbers</li> </ul>
More addition	<ul style="list-style-type: none"> <li>• The 'adding on' and 'part-whole' concepts are used in adding numbers</li> <li>• The regrouping concept is applied in addition</li> </ul>
Simple subtraction	<ul style="list-style-type: none"> <li>• The 'taking away' concept is used in subtraction</li> </ul>
More subtraction	
<b>18 Money (1)</b>	
Getting to know our money	<ul style="list-style-type: none"> <li>• Coins and notes in pounds and pence can be used to pay for goods and services</li> </ul>
Exchanging money	<ul style="list-style-type: none"> <li>• A coin or note of one denomination can be used as the equivalent of another set of coins or notes of a smaller denomination</li> </ul>
Work out the amount of money	<ul style="list-style-type: none"> <li>• The amount of money can be counted in pence (up to £1) and pounds (up to £100)</li> </ul>
<b>19 Money (2)</b>	
Adding and subtracting in pence	<ul style="list-style-type: none"> <li>• Addition and subtraction concepts in numbers are used in addition and subtraction of money</li> </ul>
Adding and subtracting in pounds	
Solving word problems	<ul style="list-style-type: none"> <li>• The 'part-whole', 'adding on', 'taking away' and 'comparing' concepts in addition and subtraction are used in solving word problems</li> </ul>
<b>Practice Book – Revision 2</b>	
<b>Assessment Book – Test 8, Challenging Problems 4, Check-up 4</b>
