

# Practice I Identifying symmetrical shapes

1 Some of the following are symmetrical shapes. Identify which shapes are symmetrical. Then fill in the space.

Shapes B, D, E, F, G, H are symmetrical.

2 Which of these are symmetrical shapes?

a

b

c

d

e

f

Shapes a, c, d, f are symmetrical.

## Practice 2

## Identifying lines of symmetry

1 Is the dotted line in each shape a line of symmetry? Write **Yes** or **No** in the spaces provided.

a

Yes

b

No

c

No

d

No

e

Yes

f

Yes

g

Yes

h

Yes

- 2 Is the dotted line in each number a line of symmetry? Write **Yes** or **No** in the spaces provided.

Yes

Yes

Yes

No

### Practice 3

## Making symmetrical shapes and patterns

- 1 Each shape is half of a symmetrical shape. Complete each symmetrical shape with the dotted line as a line of symmetry.

a

b

c

d

e

f

- 2** The dotted line on each pattern is a line of symmetry. Colour the correct squares or half-squares to make each a symmetrical pattern.

a

b

c

d

- 3** Make a symmetrical shape by folding a piece of paper in half and making a cut from one point on the fold line to another point on it.

**Example**

Make ten sets of your shape and create a design by making a pattern with the shapes. Draw or stick your pattern in the space below.

Answers vary

## Maths Journal

1 Fill in the spaces using the words below.

equal

halves

divides

line

The dotted line is a line of symmetry of the shape because:

- a it divides the shape into two equal parts.
- b when the shape is folded along the line, the halves fit exactly.

2

Explain why the dotted line is the line of symmetry for the shape.

- a The line of symmetry divides the shape into two halves.
- b When folded along the line of symmetry, the halves fit exactly.

## Challenging Practice

- 1 The dotted line is a line of symmetry. Colour the correct squares or half-squares to make a symmetrical pattern.

a

b

- 2 In the square grid below, design a symmetrical pattern with the dotted line as the line of symmetry. *Answers vary*

## Problem Solving

- I Peter is making a pattern of symmetrical shapes. He has made three of them. Can you help him to make the 4th one? Draw it in the space below.
