

English

In literacy we will continue to develop our understanding of writing for purpose, including writing a biography and a narrative.

Design technology

Children will explore structure; designing and building and playground. We will learn how to measure, mark, and cut wood to create a range of structures.

Science

Circulation

In this topic, the children will be taught how to:

- identify and name the main parts of the human circulatory system, and describe the functions of the heart, blood vessels and blood
- describe the ways in which nutrients and water are transported within animals, including humans.

Computing

In computing, we will develop our understanding of networks and quizzing.

Year 6 Spring 2

History – Where does our local census tell us about our local area?

The children will be learning about our local area and will study our local census to learn about how our local area has changed. We will use a range of sources to explore our local area.

PSHE – Health and wellbeing

In PSHE this half term we will be focussing on how to care for our physical and emotional wellbeing. We will explore topics such as: meditation and vaccinations.

Maths

We will continue to explore different areas, including algebra, area, perimeter, volume and geometry. We will also continue to build our stamina in arithmetic skills, completing our daily 10 a day activity. We will also continue to develop our reasoning skills by going through sats style questions and working to develop our understanding of these.

Physical Education

This half term, Year 6 will be participating in Health Related exercises.

Why is there suffering?

This half term we ask 'Why is there suffering?' We will use our critical thinking skills to consider different ideas and beliefs about why there is suffering in the world.
